ABOUT ME

My Name is Cristian Díaz, from Venezuela, i am a web developer with 4 years of experience. I mainly develop frontend, but i know PHP and MySQL too. I am very adaptable to the situation requeriments and i have proven myself "if i can imagine it, i can create it". I feel a good leader too.
Plus, i am certified in Responsive web design and Javascript and English B2

EXPERIENCE

Frontend web developer   Oct. 2023 - Nov. 2023
Jm Codina l Remote

Develop responsive react.js layouts using TypeScript and MUI Components to an E.R.P web application

Web developer   FEB. 2023 - Oct. 2023
Jm Codina | Remote

Patch an E.R.P software made using M.V.C pattern. PHP, MySQL, JavaScript, CSS3 and HTML5 were the technologies i used to fix the bugs in that application. Some features i fixed were: some .xsl report generator that takes its data from a MySQL database, MySQL database issues, invoice calculator fixed using javascript.

React developer
Instagram clone l Project   Aug. 2023

A instagram clone i made using react.js: Responsive and login system

Web developer
Audio player l Project   Aug. 2021

Web audio player made using a php API developed by me that allows the frontend create, update and read songs (through HTTP verbs as GET, UPDATE, POST AND DELETE). Frontend features like: 100% responsive, song searcher, and the audio player that works like any other mp3 player: functions as stop song, play the prev song, play the next song and whatever
